

# MLS1.5

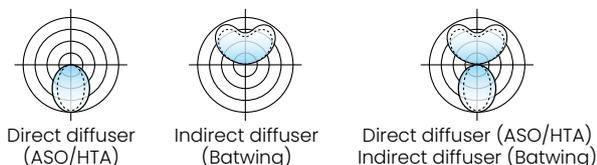

**LINEAR LED ILLUMINATING SYSTEM**  
**SUSPENDED / SURFACE MOUNT / WALL MOUNT**  
**DIRECT ONLY / INDIRECT ONLY / DIRECT/INDIRECT**

## SHAPES/PATTERNS

For other shapes/patterns/runs consult the factory.

## FEATURES

- Extruded aluminum housing.
- Narrow 1-7/8" wide profile.
- Linear lengths of 2ft and above in increments of an inch.
- Custom formulated high diffusion extruded acrylic lens.
- Non-glare matte-white polyester powder coating finish.
- Dual directional illumination. Direct downlighting and indirect uplighting.
- Custom colors available.
- Cable or stem mount from ceiling, or direct surface mount.
- A new extrusion with a shallower overall height of just 4-1/8".
- A new custom designed batwing-type indirect diffuser. Spreads light from the linear LED boards into two distinct side lobes. When projected onto the ceiling the results are a very consistent and wide spread of indirect illumination.
- New additional drop-down or pop-up diffuser options.
- Standard and custom corners, crosses and T-sections offer the ability to design unlimited patterns, shapes and runs.
- Standard or custom set lumens-per-foot performances.
- 80 CRI standard. 90 CRI available.
- Continuous dimming capability down to 1% on 0-10V controls.
- IC rated.
- CCEA option available.
- Fixture lumens per watt ratios up to 119.
- Lighting controls and sensors.
- Tunable white feature optional.
- American Made.
- Lightning Program eligible (ships in 15 days or less): See ordering data for options.

## HOUSINGS

Extruded aluminum profile in a 0.080-inch wall thickness. Maximum length of each linear component is 12-ft. .060 aluminum ends are provided where needed at row termini. A one-piece 14GA galvanized steel joiner/aligner bracket is provided for each joint between housings. Internal cold-rolled steel components. Inconspicuous cable hanging brackets at the ends. Standard or custom hanging points are provided. A custom formulated non-glare matte-white polyester powder coating provides an extremely durable and long-lasting finish. Custom color finishes on request.

## DIFFUSERS

Seamless fit diffusers. Flawless and consistent end-to-end fit.  
**HTA diffuser:** extruded from custom formulated high transmission white acrylic material. Specify when the highest performance levels are required.  
**ASO diffuser:** extruded from custom formulated smooth opal acrylic material. Specify when a more esthetically white appearance is desired.  
Smooth finish on both diffusers compliments the architectural elements.  
Standard direct diffuser: extruded from custom formulated high transmission white acrylic material. Allows maximum light transmission while eliminating pixilation and hot spots.  
Optional direct diffuser: extruded from acrylic smooth opal material. Offers a more esthetically white appearance. Note: reduces performance by up to 25%.  
Standard indirect diffuser: custom extruded batwing type that spreads the light in a very consistent and wide beam of illumination.  
Additional options: 1/2", 3/4" and 1-1/2" drop style diffusers may be added to the direct position. May also be added to the indirect position as a pop-up diffuser.

## LED MODULES

High performance linear configured LED module boards. Each board consists of multiple mid-power, high efficacy LEDs in a precise layout eliminating the need for supplemental heat sinking. The boards produce an even and diffuse light which maximizes optical efficiency. Compatible with the dimming performance of the LED driver. Color temperatures available 80 CRI: 3000K, 3500K and 4000K. Upon request: 5000K. Color temperatures available 90 CRI: 2700K, 3000K, 3500K and 4000K.

## TUNABLE WHITE OPTION

Field tunable range 2700K through 6500K. 80CRI.

## LED DRIVERS

Factory programmable constant current LED power supply. Multiple standard drive current outputs (factory set by Mercury) are cataloged with their corresponding lumens-per-foot offering. Upon request, custom drive current outputs and lumens-per-foot options are available. Note: Certain cataloged lumens-per-foot offerings may be provided with a non-programmable constant current LED power supply at Mercury's discretion. Contact factory if critical. Universal voltage input, 120V-277V, 50HZ-60HZ. Continuous dimming capability down to 1%-standard. 0.1% available upon request. Dim to Dark option available upon request. Sensor ready (SR) drivers compatible with most lighting controls are optional. Consult factory. Lutron drivers available: LDEI series.

## STANDBY LIGHTING OPTIONS

Self-contained module, 10W or 12W as specified. Battery backup upon loss of power. Available in modules of 4-ft. and longer.

## INTEGRAL LIGHTING CONTROLS

Various lighting controls and sensors are optional. Consult factory.

## CORNERS

Standard 90 degree corners. Custom angled corners, crosses and T-sections. Consult factory.

## INSTALLATIONS

Designed to be suspended on cables. Specify **M** Easy-connect cable hangers make installations easy. For direct surface mounting to most ceiling types, specify **MI** and consult factory. For stem mounting specify **M2** and consult factory. Lengths of 12-ft. and less to use one housing with two ends pre-installed. Lengths over 12-ft. will be engineered to job requirements using multiple housings with one end pre-installed at each row end. Lengths over 12-ft. will include appropriate job required quick-connect plug-thru wire harnesses and housing joiners. All individual modules or multiple module runs to include job required feed wire as specified. Standard or custom hanging points will be provided per job specifications.

## CERTIFICATE OF SAFETY COMPLIANCE AND LISTINGS

Luminaire: UL and CUL listed 1598 and bears their label. Suitable for damp locations. Optional: Suitable for wet locations marking is available. Some limitations apply. Contact factory for all details.

## LIGHTNING PROGRAM

Same quality product, shipped in 15 days or less (if drawings are required, 15 days or less starts after drawings are released). Entire order must qualify for [Lightning Program](#) in order to meet freight charges. Please contact our sales team if unsure your order will qualify. Options highlighted in Blue, 500 linear feet or less, are eligible for quick ship [Lightning Program](#). Relates to straight runs ONLY. Other variations not highlighted in blue may be available under [Lightning Program](#). Please consult factory. Specify LP-MLS1.5 when placing order if you would like to use [Lightning Program](#).

## WARRANTY

5-year limited warranty is standard. Special 10-year warranty available on a job-to-job basis. Complete LED warranty terms available at [www.mercltg.com](http://www.mercltg.com). Actual performance may differ as a result of end-user environment and application. Most LED luminaires are suitable to operate in ambient temperatures from -20C (-4F) to 25C (77F). The following exclusions apply: Luminaires with optional standby lighting option, integral lighting controls options, or wireless control options. Consult factory. LM-79 testing was measured under a controlled 25C (77F) ambient operating temperature.
