

L501 SERIES

Enclosed and Gasketed Wet Location LED Luminaire

Fixture Type:

Job Information:

SPECIFICATIONS:

LED MODULES:

- High performance linear configured LED module boards.
- Each board consists of multiple mid-power, high efficacy LEDs in a precise layout eliminating the need for supplemental heat sinking.
- The boards produce an even and diffuse light which maximizes optical efficiency.
- Compatible with the dimming performance of the LED driver.
- Color temperatures available: 3500K, 4000K and 5000K.
- Upon request: 3000K.

LED DRIVERS:

- Factory programmable constant current LED power supply.
- Multiple standard drive current outputs (factory set by Mercury) are cataloged with their corresponding lumen package offerings. Upon request, custom drive current outputs and lumen packages are available.
- Note: Certain cataloged lumen packages may be provided with a non-programmable constant current LED power supply at Mercury's discretion. Contact factory if critical.
- Universal voltage input, 120V-277V, 50HZ-60HZ.
- Specification grade dimming down to 1% on 0-10V dimming controls.

LED LUMEN PACKAGES:

- Cataloged standard lumen packages. See attached chart for full details.
- Custom lumen packages pre-set are optional with programmable drivers only. Contact factory for details.

HOUSING:

- Compression molded in one-piece of non-conductive, non-corrosive, and self-extinguishing 5V-A fiberglass.
- A poured continuous gasketing permanently bonds and fills perimeter channel where upon latching, the diffuser and housing form a liquid tight seal.
- Permanently finished in a pearl white color that never needs painting or refinishing.
- LED module boards are fastened to a heavy gauge aluminum wiring tray which is tethered to the housing.

DIFFUSERS:

- 100% impact modified, frosted, high transmission, acrylic lens.
- Optional unbreakable frosted polycarbonate upon demand. Not available on 8Ft. modules.
- Rounded linear ribbing for high LED performance.

LATCHING:

- Celcon/POM Plastic Latches with self-locking features to stay closed without hardware.
- Stainless steel latches (Marine Grade 316SS) - Optional.
- Tamperproof screws optional.

STANDBY LIGHTING OPTION:

- Self-contained module, 10W or 12W as specified.
- Battery backup upon loss of power.
- Availability: 4Ft. module, maximum 6400 lumen output. 8Ft. module, maximum 9000 lumen output. See warranty below.

INSTALLATIONS:

- Mount individually or in continuous runs.
- May be surface mounted or suspended.
- A 7/8" hole in each end for surface conduit entry and continuous feeds. Liquid tight plugs supplied. Weatherproof hubs supplied by others.
- Optional stainless steel "slide grip" style hanger brackets allow easy mounting without drilling housing. Two top-side embossments contain drill points for job site mounting options. Proper sealing will maintain wet location status.
- Cold storage application require polycarbonate lenses and stainless steel latches.

CERTIFICATE OF SAFETY COMPLIANCE

- Luminaire: UL and CUL listed 1598 and bears a UL wet location label.
- NSF International Certified.
- IP65 & IP66 Certified.
- NEMA 4X Certified.

WARRANTY:

- 5-year limited warranty is standard. Special 10-year warranty available on a job-to-job basis. Complete LED warranty terms available at www.mercltg.com
- Actual performance may differ as a result of end-user environment and application.
- Luminaires are suitable to operate in ambient temperatures from -20C (-4F) to 25C (77F).
- Luminaires with an optional standby module installed are suitable to operate in ambient temperatures from 0C (32F) to 25C (77F).
- The following exclusions apply: Luminaires with integral lighting controls options, or wireless control options. Consult factory.
- LM-79 testing was measured under a controlled 25C (77F) ambient operating temperature.

FEATURES:

- Enclosed and gasketed linear ambient LED luminaire.
- UL listed for wet locations.
- Weather and chemical resistant, corrosion free, and impervious to vapors, dust, and moisture.
- Food handling and processing facilities, refrigerated storage, drug and chemical plants. Use in shower areas, parking garages, pedestrian and roadway tunnels, and outdoor public areas.
- 100% impact modified, frosted, high transmission, acrylic lens.
- Upon request, optional unbreakable frosted polycarbonate diffuser.
- Internal rounded linear ribbing allows maximum light transmission while eliminating pixilation and hot spots. Smooth outside surface resists dirt and bacterial growth and allows for easy cleaning.
- Nominal 2Ft., 4Ft., or 8Ft. long modules.
- Digital LED technology provides high efficacy and energy efficiency.
- Multiple power and light levels are offered as standard to allow meeting design and energy needs per application. Custom factory set levels available on request.
- Lumen maintenance; Reported L70 (hours) & L80 (hours) > 60,000.
- CRI greater than 80.
- Fixture lumens per watt ratios up to 156.
- American Made.
