

# LHBT/R or S SERIES

High Lumen Industrial High-Bay LED Luminaire Diffuser Enclosed LED Design

Fixture Type:	
Job Information:	

#### **SPECIFICATIONS:**

#### LED MODULES:

- High performance linear configured LED module boards.
- Each board consists of multiple mid-power, high efficacy LEDs in a precise layout eliminating the need for supplemental heat sinking.
- The boards produce an even and diffuse light which maximizes optical efficiency.
- Compatible with the dimming performance of the LED driver.
- Color temperatures available: 3500K, 4000K and 5000K.

#### LED DRIVERS:

- Factory programmable constant current LED power supply.
- Multiple standard drive current outputs (factory set by Mercury) are cataloged with their corresponding lumen package offerings. Upon request, custom drive current outputs and lumen packages are available.
- Note: Certain cataloged lumen packages may be provided with a non-programmable constant current LED power supply at Mercury's discretion. Contact factory if critical.
- Universal voltage input, 120V-277V, 50HZ-60HZ.
- Specification grade dimming down to 1% on 0-10V dimming controls.
- · Optional 480V available on request.

#### **LED LUMEN PACKAGES:**

- Cataloged standard lumen packages. See attached chart for full details.
- Custom lumen packages pre-set are optional with programmable drivers only. Contact factory for details.

#### **HOUSING:**

- Fabricated from heavy gauge code grade cold rolled steel with parts securely held into place with a combination of rivets and screws.
- · Vented housing for additional heat management.
- White polyester powder coating finish on all parts for long lasting durability.
- Sufficient electrical knockouts are provided on the housing back and ends.
- · Wiring access plate on back for easy installations.

#### **DIFFUSERS**

- Twin linear diffusers extruded from custom formulated high transmission acrylic material.
- Architecturally-curved or squared profiles as specified.

· Linear ribbing for high LED performance.

#### **INSTALLATIONS AND OPTIONS:**

- Intended to be suspended on aircraft cable, chain or stems. Cataloged on accessory matrix.
- Optional top mounting box accepts a single stem, conduit, pipe, or add additional locking-hook to box which accepts chain.
- Optional wired-in flex, cord and plug sets, and twist-lock plug sets.

#### **STANDBY LIGHTING OPTION:**

Self-contained module, 10W or 12W as specified. Mounts on top of housing. Battery backup upon loss of power.

#### **OPTIONAL OCCUPANCY SENSOR:**

- Self-contained sensor (Leviton #OSFHU or equal) mounts directly to luminaire.
- Passive infrared (PIF) technology for individual luminaire control.
- Reliable coverage up to 40Ft. height.
- Interchangeable lenses for 360 degree or aisle way pattern.

## CERTIFICATE OF SAFETY COMPLIANCE AND LISTINGS:

 Luminaire: UL and CUL listed 1598 and bears their label. Suitable for damp locations.

#### **WARRANTY:**

- 5-year limited warranty is standard. Special 10-year warranty available on a job-to-job basis. Complete LED warranty terms available at www.mercitq.com.
- Actual performance may differ as a result of end-user environment and application.
- LED luminaire is suitable to operate in ambient temperatures form -40C (-40F) to 40C (104F).
- The following exclusions apply: Luminaires with standby lighting options, integral lighting controls options, or wireless control options. Consult factory.

#### **FEATURES:**

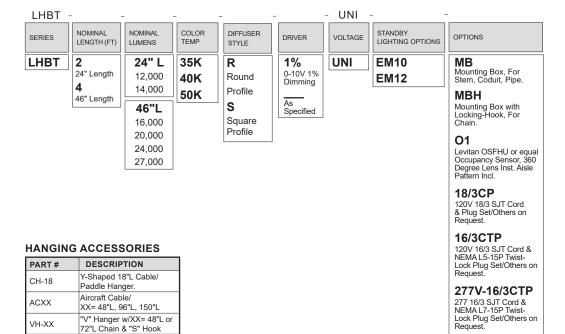

- High-Bay style linear ambient LED luminaire.
- Performance designed for very high lumen packages.
- Intended for the higher ceilings found in industrial locations as well as warehouses, big box retailing and gymnasiums.
- Ultra-thin thermally designed full body style housing.
- Enclosed LED design features twin high transmission acrylic diffusers which protect the LED modules. Also provides a softer, more visually comfortable illuminated luminaire along with a wider distribution pattern.
- Select R style for the rounded diffusers, select S style for the square diffusers.
- Standard nominal lumen packages cataloged for a 24" length or a 46" length module.
- · Other lumen packages upon request.
- Digital LED technology provides high efficacy and energy efficiency.
- No maintenance required as High Bay LED luminaries require no re-lamping efforts.
  Extremely important with intended mounting heights up to 35 feet.
- Lumen maintenance; Reported L70 (hours) & L80 (hours) > 60,000.
- · CRI greater than 80.
- Fixture lumens per watt ratios up to 129.
- For new installations or direct replacement for older HID or fluorescent luminaries.
- American Made.
