Housings

Extruded aluminum profile in a 0.080-inch wall thickness.

Maximum length of each linear component is 8-ft. .060 aluminum ends are provided where needed for each row termini.

An integral joiner/aligner is provided for each joint between housings.

Standard hanging brackets are provided.

A custom formulated non-glare matte-white polyester powder coating provides an extremely durable and long-lasting finish.

Custom color finishes on request.

Diffusers

Seamless fit diffusers. Flawless and consistent end-to-end fit.

Standard direct diffuser: extruded from custom formulated smooth opal acrylic material.

Allows maximum light transmission while eliminating pixilation and hot spots.

Standard indirect diffuser: custom extruded batwing-type that spreads the light into two distinct side lobes.

When projected onto the ceiling the results are a very consistent and wide spread of indirect illumination.

LED Modules

High performance linear configured LED module boards.

Each board consists of multiple mid-power, high efficacy LEDs in a precise layout eliminating the need for supplemental heat sinking.

The boards produce an even and diffuse light which maximizes optical efficiency.

Compatible with the dimming performance of the LED driver.

Color temperatures available 80 CRI: 3000K, 3500K and 4000K. Upon Request: 5000K

Color temperatures available 90 CRI: 2700K, 3000K, 3500K and 4000K.

All LED drivers are for remote mounting only.

Remote mounting boxes available.

Contractor responsible for locating and mounting above the ceiling line.

All luminaires supplied with needed wiring back to remote drivers.

Factory programmable constant current LED power supply.

Multiple standard drive current outputs (factory set by Mercury) are cataloged with their corresponding lumens-per-foot offering. Upon request, custom drive current outputs and lumens-per-foot options are available.

Universal voltage input, 120V-277V, 50HZ-60HZ.

Continuous dimming capability down to 1%-standard.

0.1% available upon request.

Dim to Dark option available upon request.

Installations

Designed to be suspended on cables.

Easy-connect cable hangers make installations fast and easy.

Lengths of 8-ft. and less to use one housing with two ends pre-installed.

Lengths over 8-ft. will be engineered to job requirements using multiple housings with one end pre-installed at each row end.

Lengths over 8-ft. will include appropriate job required housing joiners.
